PROFESSIONAL EXPERIENCE

Self Employed | Montreal, Canada

Freelance Web Developer | 2023 - Present

- Design, develop, and deploy full content management systems (CMS) with a focus on responsive and mobile-friendly design.
- Ensure seamless integration of UI/UX elements by collaborating with clients.
- Write and deliver website documentation and manuals to clients.
- Ensure cross-browser compatibility and accessibility in all applications.
- Notable projects: McGill Caret English Journal, Tazreen Jahan Bari's Website

Gatestone | Montreal, Canada

Bilingual Team Leader | 2026 - Present

- Promoted to Team Leader as a result of showcasing solid de-escalation strategies, call handling, agent management and a continued strong grasp of policies and processes.
- Perform call audits and coach agents, ensuring that agents are up-to-date on policies and processes while maximizing their KPI targets.
- Provide technical support with toolchains, core software and hardware where necessary.
- Manage back-end support to agents in regards to complex or unordinary circumstances with out-of-the-box solutions within policy, meeting business goals and customer needs.

Bilingual Escalations Specialist | 2025 - 2026

- Promoted to Escalations Manager in under 4 months as a result of meeting regular KPI targets and showing a strong understanding of policy.
- Handled escalated calls as managerial representative, providing reasonable solutions to customers within company policy.

Bilingual Financial Service Representative | 2025 - 2025

- Interacted with 40+ customers daily, developing strong communication and problem-solving skills in a fast-paced environment as a financial services representative.
- Translated financial jargon into clear language, resulting in better collections.

WPP Production (formerly Wunderman Thompson) | Dhaka, Bangladesh

Web Developer | 2022 - 2023

- Developed and optimized responsive web pages and EDMs for Microsoft, ensuring high-quality UI/UX.
- Collaborated closely with designers to integrate visual elements effectively.
- Automated repetitive frontend development tasks, improving team productivity by 8%.
- Utilized cross-browser compatibility and A/B testing to maximize click-through-rates.

Configura | Kuala Lumpur, Malaysia

Application Developer Intern | 2019

- Developed interactive dashboard components in Jira, increasing productivity by 13%.
- Worked in an agile environment, implementing quick iterations based on team feedback.
